Permit application must be accompanied by two (2) sets of plans and a site plan. Additional information may be required as determined by the Building and Zoning Administrator.

NOTICE

Separate permits are required for electrical and plumbing work. This permit becomes null and void if work on construction authorized is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced.

I certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with, whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any state or local law regulating construction or the performance of construction. All work must be inspected before it is concealed, and when it is complete.
