

SANITATION COMMITTEE MEETING
Wednesday March 8, 2017
3:00 p.m.

Present: Matt Crull, Kent White, Mayor Steve Brimhall, Brent Schleisman, Jim Warner, Larry Hite, John Boecker, Steve Engberg, Shawn Sullivan

Absent: Rick Mullin

Shawn Sullivan requested the City to reconsider the charge from the Public Works Department for fixing the private sewer line that serves the property at 303 South Jackson. The Committee declined his request but the City would make payment arrangements.

Jim Warner gave an update on the Jay Street property. We're still waiting on the IDNR approval for the project. Jim informed the Committee that he believes he's found some potential savings in the storm sewer work on this project.

Jim gave an update on the lining and spot repair project. Again, still waiting on IDNR's approval.

Jim reported the Hearth and Home sanitary sewer pipe has been completed.

The Committee approved the request from Chuck Andrew for a Sanitary Sewer credit for a waterline break in his garage. The credit will be a three-month average usage.

The Committee approved the amended ESA from Warner and Shive Hattery for the area #2 sewer project, the lining and spot repair project and the bar screen project.

Meeting adjourned.
